DRMA Launches New Website

Dayton, Ohio - Throughout the past 85 years, the manufacturing industry has changed many times over. One thing that has stayed consistent is the innovation and impact the Dayton Region Manufacturer Association (DRMA) has had in the Dayton area. One recent way they have stayed true to their forward-thinking attitude is with the implementation of a new website.

Since 1934, the DRMA has been the voice for our region's manufacturers. DRMA is guided by a volunteer board of trustees made up of industry experts who understand the challenges of manufacturing. DRMA focuses its time strengthening the industry through education, advocacy, and workforce initiatives. "Our region is made up of over 2,450 manufacturers with payrolls over \$8.8 billion, so we need to make sure they get the support needed," said Don Clouser, DRMA chairman. "To keep up with the times, we are announcing the launch of our new website."

This new website is designed specifically for members and manufacturers across the region to quickly find the information and support they need. You can see the new DRMA website at www.daytonrma.org. You can also contact DRMA at 937-949-4000 if you have questions or would like to become a member.

###

The Dayton Region Manufacturers Association (DRMA) provides programming, education, and peer-to-peer connectivity opportunities for members serving the aerospace, agricultural, medical, construction, defense and other markets. It represents over 200 manufacturers in the Dayton Region and has 400 member companies. Manufacturing in the Dayton Region employs over 123,000 workers earning \$8.8 billion in annual payroll. For more information about DRMA, visit www.DaytonRMA.org.
